Skills

I already worked on a lot of projects, with the most different technologies to solve the most different kinds of problems, always trying to find who is the best technology to solve each problem. I'm also studying new technologies each week. So this list is in constant changing.

Programming/Markup/Stylesheet/Notation languages

Javascript [ES5, ES6, ES7, ES8] (Browser and Node.js), TypeScript, PHP, Dart, CSS3, JSON, XHTML, JSX

Preprocessors/Static type checkers

Flow, SASS, Compass, LESS

Back-end - PHP frameworks & libraries

Laravel, Lumen, CodeIgniter, Slim Framework, BotMan, Smarty, Twig, Swagger for PHP

Back-end - Node.js frameworks & libraries

Express, Puppeteer, Socket.IO, TypeORM, Sequelize, TypeGraphQL, Swagger for Node.js, AdonisJs, Next.js, After.js, Gatsby, Pug, EJS

API construction

REST, GraphQL

Front-end- Frameworks & Libraries

React, Redux, Vue.js, Vuex, jQuery, Axios, Lodash, Bootstrap, Materialize, Material-UI, Handlebars, Glamor, Glamorous, JSS, Styled components, Emotion, Styletron, Stitches

Mobile - Frameworks & Libraries

React Native, Flutter

Linting/Code Quality Tool

Eslint, JSLint, Standard JS, PHP_CodeSniffer

Query languages

GraphQL, SQL, ReQL, MongoDB Queries

Databases

MySQL, RethinkDB, MariaDB, PostgreSQL, MongoDB, Redis, MSSQL, SQLite

Prototyping

Figma, Zeplin, Adobe XD, InVision

Version control

GIT, SVN, CVS

Test tools

Cypress, Jest, Enzyme, PHPUnit

REST API description tool

Swagger, Blueprint, Apiary

CMS

WordPress (plugins, themes and widgets)

Dependency managers

Yarn, Npm, Composer

Module bundlers & Task runners

Webpack, Gulp

Work/Deployment environment

Docker, Vagrant, Heroku, Digital Ocean, Linode, Generic shared hosts

Others

Babel, Storybook, MVC, ORM, OOP, AWS (S3), Functional programming, SOLID, Natural Language Processing, Scrum, Continuous Integration, Continuous Delivery, Progressive web apps, Reactive programming, Memcached, Responsive design, Web standards, Performance, Usability, Accessibility - a11y, SEO

Experience

I already had the opportunity to work on awesome companies with awesome people.

Clevertech consultant - Front-end Engineer Clevertech

Jul, 2019 - May, 2020

Working on Clevertech clients, using React, Redux, and related technologies.

Aubay consultant - Front-end Engineer TripAdvisor

Oct, 2018 - Jul, 2019

Working on internal tools and projects for the hotel's segment, using React, Redux, and correlated technologies, migrating legacy technologies to a new stack, or adding new features on current products.

Aubay consultant - Front-end Engineer OLX

Sep, 2017 - Sep, 2018

Front End engineer at OLX, working on a product for premium sellers on a vertical platform focused on cars sales in some European countries (Standvirtual in Portugal, Autovit in Romania, and Otomoto on Poland). The challenge here was to maintain legacy software (monolithic architecture, classical MVC with PHP) and at the same time work with new technologies (SPA, PWA, microservices architecture, etc.), migrating parts of the product and keeping some points as a priority, like SEO.

Tech Lead & Full Stack Developer Planedia

Jun, 2013 - Jul, 2017

I worked on this startup since it was founded, working as a back-end, using PHP & Laravel. Sometime later, I switched for a front-end position, working with React & Redux. I also helped with the recruiting process to get new developers and taking technical decisions.

Front-end Engineer Liferay

Mar, 2012 - Feb, 2013

Allocated inside a Liferay customer (Leroy Merlin Brazil), I helped to upgrade the customer website, applying the most recent Liferay features and the Liferay best practices, and to convert it on e-commerce portal, able to sell more than 80.000 different products.

Front-end Engineer Record TV

Jan, 2011 - Mar, 2012

I worked on the blogs team, using WordPress. Involved in dozens of projects, I created blogs and sites for soap operas, reality shows, news programs, journalists, auditorium programs, etc. My mission was creating themes, plugins, and widgets for different projects. Previously, the company has contracted external partners for creating his projects. I started on a new blogs team (I was the third member). At the end of the year, we were more than 20 members. There were no more external partners working on projects because the sites and blogs were created and maintained by our team.

Back-end Developer Grupo Ser Educacional

Oct, 2008 - Feb, 2012

As a back-end developer, I worked on some educational software inside of this company. With more than 100.000 students around the country, the educational group needed software to the handle library books and books reservations, control financial data, students make enrolment, paying his monthly tuition, entrance exams, etc.

Courses

I know, is not a lot and they are unfinished, but I can't learn using the traditional courses (I'm trying, but the applied methodologies not helping). But, this not means I not study. I do this every day, but using my way. I try to learn something new every single day.

Bachelor of Computer Science Faculdade dos Guararapes

Jul, 2006 - Dropout

Mechatronics technician ETEPAM

Jan, 2008 - Dropout

Computer Technician IFMA

Jul, 2006 - Dropout

Electronics Technician IFMA

Jul, 2004 - Dropout

Open Source

Since my career's beginning, I always used open source tools. So, why not to contribute with some open source tools?

Laravel bootstrap forms 4

<https://github.com/netojose/laravel-bootstrap-4-forms>

Laravel 5 package forms for bootstrap 4

Laravel 5 API REST explorer

<https://github.com/netojose/laravel-api-explorer>

API explorer for laravel applications

Google Maps Places Autocomplete React component

<https://github.com/netojose/react-google-places-typeahead>

A React component to build a customized UI for Google Maps Places Autocomplete

React Select date picker

<https://github.com/netojose/react-select-datepicker>

A simple React date picker based on select fields

React Modal

<https://github.com/netojose/react-modal>

A lightweight dialog component for React

My site
